### Usage Guideline Description

The cheque number and implementation-assigned checkbook code(s) are required for each print instruction, along with full beneficiary name and postal address. Cheque numbers are required to be unique for 365 days for each checking account used.

Optional check bundling and courier services are available. See your implementation manager for setup and data population requirements.

Structured or unstructured remittance data will be sent to the beneficiary on the remittance stub if provided.

Positive pay issues or voided issues can be sent for customer-printed checks.
